## Employment

---

**Web** *Remote*  
FREELANCER *Aug. 2017 - Exp. Present*

- Different types of projects.
- **Technologies:** Django, Flask, React, JavaScript, Python, MySQL

**FoundersBuddy (formerly Rubako)** *Remote*  
WEB DEVELOPER *Mar. 2016 - Exp. Present*

- Implementing a data visualization web application.
- Different internal services to increase team's productivity.
- Different types of Client projects.
- **Technologies:** Django, Flask, React, Sanic, PostgreSQL, AWS, Redshift, S3

**Appforall** *Tehran, Iran*  
FULL-STACK DEVELOPER *Dec. 2014 - Exp. Present*

- Implemented RESTful API to provide mobile application resources.
- Improved legacy website implementation in performance.
- **Technologies:** Python, Express.JS, RabbitMQ

**FoundersBuddy (formerly Rubako)** *Remote*  
FREELANCER DEVELOPER *Dec. 2015 - Exp. Mar. 2016*

- Developed a devops automation tool to discover unexpected incidents and start recovery process immediately.
- **Technologies:** Meteor, Docker, CoreOS

**Bazarkhan** *Tehran, Iran*  
FREELANCER DEVOPS AND SYSTEM ADMINISTRATOR *Jun. 2016 - Exp. Mar. 2016*

- Implemented continuous delivery procedure
- Installed and configured necessary setup to deliver application
- **Technologies:** Git, Nginx

## Education

---

**LIAU (Technology and Engineering Department)** *Lahijan, Iran*  
B.S. IN SOFTWARE ENGINEERING *Sep. 2007 - Dec. 2011*

## Applications of Free-Software

UNDERGRADUATE STUDENT REPORTER

*Lahijan Iran*

*Sep. 2011 - Dec. 2011*

- Article about applications and use cases of Free-Software utilities (specially Linux) in industry
